Canskate is Skate Canada's learn-to-skate program, designed for beginners of all ages. The program is great for those interested in participating in figure skating, hockey, or those who just want to skate for fun. When you sign up for Canskate you will be in a program that focuses on fun, participation, and basic skill development. Lessons are given in a group format and led by an NCCP certified professional coach who is assisted by trained Program Assistants. Skaters progress at their own rate and coaches make sessions active using teaching aids, music and a wide variety of circuits and games that create a fun environment and promote learning. We run the "New" Canskate program which focuses on Agility, Balance, and Control at each of the 6 badge levels. This program is great as it combines general skating skills, with hockey and figure skating skills, which allows us to offer one program that can be enjoyed by skaters of all different disciplines.

Bridging is an opportunity for Canskaters in Stage 4 and higher to participate in both Canskate and Starskate. Skaters receive an extra hour of ice time before or after Canskate in which they receive more advanced lessons and time to learn to practice skills on their own.

Starskate The STAR in Starskate stands for Skills, Tests, Achievement, and Recognition. Starskate offers opportunities for skaters of all ages to develop fundamental figure skating skills in the areas of ice dance, skating skills, free skate and interpretive skating. This program teaches figure skating skills in a group and/or private lesson format in a progressive and sequential manner and includes specifically designed awards and incentives. Skaters have the opportunity to take Skate Canada Tests through a nationally standardized testing system.

Head Coach – Sheena Goodbrand NCCP Level 2 Certified Skate Canada Coach with 16 years coaching experience.
