We have been notified of the Coyotes that have been roaming around the Town. The conservation officer as well as our permitted pest control have been contacted. Please refrain from feeding your pets or any other animals outdoors, as this attracts coyotes and other wild animals. If you have a problem with a coyote please contact the Town Office! If you are not the permitted pest control you **ARE NOT** to shoot within Town Limits. Please see attached the by-law Control and Regulations of Fire-Arms.
